SUMMARY

Final-year BCA student with hands-on experience in Web Development, AI, and Cybersecurity through multiple internships. Skilled in Java, Python, and modern web technologies, with practical knowledge of manual testing and basic automation concepts. Proven ability to lead teams, manage projects, and build real-world applications. Seeking an entry-level role as a Software Developer or QA Engineer.

TECHNICAL SKILLS

- Programming Languages: Java, Python
- Web Technologies: HTML, CSS, JavaScript, PHP, Bootstrap, React, TypeScript
- Databases: MySQL, Oracle SQL, MongoDB
- Tools & Technologies: GitHub, JIRA (Agile/Scrum), Postman, Eclipse, OpenCV, TensorFlow
- Testing: Manual Testing (Test Case Design, Bug Identification), API Testing using Postman
- Concepts: Data Structures & Algorithms, OOPs, REST APIs

INTERNSHIP EXPERIENCE

1. **AI Intern** (Microsoft, AICTE, Edunet | Apr 2025 – May 2025)
   - Developed a computer vision-based hand gesture recognition system using Python, OpenCV, and TensorFlow
   - Trained the model to detect and classify gestures (1–5) with real-time processing
2. **Cybersecurity Intern** (IBM SkillsBuild, AICTE, Edunet | Jan 2025 – Feb 2025)
   - Built a Java-based application for secure data hiding in images using steganography techniques
   - Implemented encryption and decryption functionalities with an interactive GUI
3. **AI Intern** (TechSaksham (Microsoft, SAP, AICTE) | Dec 2024 – Jan 2025)
   - Analyzed shopping trends using Python (Pandas, Matplotlib, SciPy)
   - Generated data visualizations and insights using Jupyter Notebook
4. **Web Development Intern** (GAOTek Inc. | Jun 2024 – Dec 2024)
   - Designed an e-commerce website using WordPress, PHP, SQL, HTML, CSS, and JavaScript
   - Led and managed a team of 150+ interns, assigning tasks, conducting meetings, and tracking progress
   - Reviewed deliverables, resolved technical issues, and reported performance metrics to HR

PROJECTS

1. **Digital University**
   - Developed a digital university platform enabling student registration, authentication, and academic dashboard access
   - Implemented features such as attendance tracking, results management, and resource sharing
   - Utilized JSON-based backend for temporary data storage and handling
   - Tech Stack: HTML, CSS, JavaScript
2. **CryptoSphere**
   - Built a security-focused web application implementing encryption and decryption techniques
   - Integrated steganography for secure data transmission and protection
   - Tech Stack: React, TypeScript, JavaScript
3. **CodeCraft Landing Page**
   - Developed a responsive website with animations and interactive UI
   - Integrated form handling functionality to capture user inputs and send responses via email
   - Tech Stack: HTML, CSS, JavaScript
4. **Hand Gesture Recognition**
   - Developed an AI model to recognize hand gestures using OpenCV and TensorFlow
   - Enabled real-time gesture detection
   - Tech Stack: Python
5. **Secure Data Inside Image (Steganography Tool)**
   - Built a tool to securely hide and retrieve data within images without affecting image quality
   - Developed GUI for enhanced usability
   - Tech Stack: Java
6. **BlogTech**
   - Designed a responsive blogging website focusing on UI/UX using Bootstrap
   - Created reusable components for optimized layout across devices
   - Tech Stack: HTML, CSS, Bootstrap

EDUCATION

Bachelor of Computer Applications (BCA)
KES Shroff's College, Mumbai University | 2023 – Present
CGPA: 8.3 (Sem I – Sem V)

CERTIFICATIONS

- Generative AI & Prompt Engineering | 2025
- Data Analytics in Excel | 2025
- Python for Data Science | 2024
- AI & ML in Materials Engineering | 2024
- Web Design & Development | 2023

ACHIEVEMENTS & LEADERSHIP

- Awarded Best Student Manager by University of Mumbai
- Secured 1st Rank in Inter-Departmental Annual Competition (Critics Section)
- Led a department of 200+ students under DLLE (University of Mumbai)
- Served as Class Representative for 2 years
- Organized a National-Level Hackathon
- Participated in Build & Grow Hackathon
- Presented project at Avishkaar (University of Mumbai – Ward Level)

KEY HIGHLIGHTS

- Completed 4+ internships across AI, Web Development, and Cybersecurity domains
- Built 8+ projects including AI models, web platforms, and security applications
- Demonstrated leadership by managing teams of over 150+ members
